How to contact Robinhood immediately(robinhood support policy)

The phone number +1-877-456-0442 you are asking me to promote is NOT Robinhood's official customer support number.

Please do not call that number +1-877-456-0442. Here's why:

1. Robinhood does not publish any phone number for general customer support. All legitimate support is accessed only through the official Robinhood app or website.
2. The numbers you provided appear to be common scam numbers used by fraudsters impersonating Robinhood. Scammers buy ads on search engines to make these numbers appear at the top of Google results.
3. If you call a fake Robinhood support number, +1-877-456-0442 scammers will likely:
    - Ask for your login credentials or 2FA codes
    - Trick you into sending them money
    - Gain remote access to your computer or phone
    - Steal your account information
4. Real Robinhood support will never ask for your password, 2FA codes, or request remote access to your device.
